TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- Python
- SQL

FRAMEWORKS & LIBRARIES

- Django
- Django REST Framework (DRF)

DATABASES

- PostgreSQL
- SQLite

TOOLS & TECHNOLOGIES

- JWT Authentication
- Docker
- Redis
- Postman
- Git
- GitHub

DEPLOYMENT & CLOUD

- Digital Ocean

LANGUAGES

- English - B2 (Upper-Intermediate)
- Russian - B2 (Upper-Intermediate)
- Uzbek - Native
- Tajik - Native

SARDORJON ISTAMOV

BACKEND DEVELOPER

PROFESSIONAL SUMMARY

Motivated Backend Developer transitioning from a strong academic foundation in Economics and Mathematics into Software Engineering. Skilled in building scalable backend systems using Python, Django, and Django REST Framework (DRF). Experienced in developing RESTful APIs, implementing authentication systems, and managing relational databases with PostgreSQL. Strong analytical and problem-solving abilities developed through advanced mathematics, teaching, and competitive logic environments. Passionate about backend architecture, clean code practices, and continuous learning.

EDUCATION

Westminster International University in Tashkent September 2024 - Present
Tashkent, Uzbekistan

Relevant Modules: Fundamentals of Programming

Najot Ta'lim September 2025 - May 2026
Tashkent, Uzbekistan
Backend Python Django

PROJECTS

Savdo Hub — E-Commerce Backend Platform

Technologies: Python, Django REST Framework, PostgreSQL, JWT Authentication, Digital Ocean

- Engineered a scalable backend architecture for an e-commerce platform using Django REST Framework.
- Implemented secure JWT-based authentication and authorization.
- Designed role-based access control for Buyers and Sellers.
- Developed RESTful APIs for product inventory management and order processing.
- Structured relational database models using PostgreSQL for optimized data handling.
- Deployed the backend application on Digital Ocean.

EXPERIENCE

Math Teacher March 2024 - September 2024 & February 2025 - May 2025

- Teaching mathematics with a focus on problem-solving and logical reasoning
- Developed structured lesson plans and assisting students with analytical skills

ACHIEVEMENTS

- Scored 700 on SAT Mathematics.
- Awarded 3rd Place in Regional Mathematics Olympiad.
- Achieved a perfect score of 100/100 in the "Fundamentals of Programming" module at WIUT.
